BRAND DEVELOPMENT

the looking glass

OUTLINE

Our brand approach
Recapping the brief
Credence personality
Design trends
Credence branding

Building a brand is the exercise of
making your business vision
tangible.

Branding, in its most
simplest form, is the
art of differentiation.

the looking glass

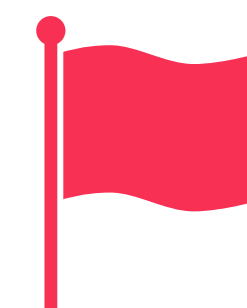

BRAND POWER

A brand's perception as
meaningful, different & salient
is directly linked to profit.

MEANINGFUL

Creates a meaningful difference in
the lives of people creating an
emotional attachment to the brand
“with heart”.

DIFFERENT

Unique in its market category, a
leader or trend setter.

SALIENCY

How quickly a brand comes to mind
when someone mentions your industry.

Recapping the brief

Our products and services and the problems we solve?

Offering

An API driven modern card issuing platform that enables businesses to launch and operate consumer and business card programmes efficiently and effectively without needing to build the capability themselves.

Problems we solve

vs Self Build

- Eliminate complex, time consuming and expensive investment in building card programmes in-house.
- Avoid the risk and cost involved in needing to adhere to strict card scheme and regulatory compliance requirements.
- Remove the need to build deep card payment expertise within the customer's own operations allowing them to focus on building and growing their businesses.

vs Competitors

- Remove the complexity, time and cost involved in integrating with legacy processors and some modern card issuing platforms.
- Reduce the need for customers to rely on human intervention to support them in establishing and operating card programmes.
- Deliver bank-grade operational resilience to minimise platform downtime and the associated revenue and customer reputation issues that each one of these instances causes.

Brief for txn logo

Logo and design language differentiated from competitors and creates a sense of solutions driven by smart and intuitive tech

- Simple and distinctive, intelligent and magnetic
- Modern, future-facing and tech/AI looking, digitally-native – AI nodes, modular tech, neural networks, machine logic, connected systems
- Symbol/icon along with txn
- Lower case txn for modernity (uppercase for strength – but could be perceived as an acronym)
- Should animate well digitally – open and fluid
- Could make use of txn/or txn_
- Must reflect innovation, simplicity, clarity and trust – but hint at the power of tech and data-driven intelligence
- Balance between logic and artistry – creative intelligence
- Gradients, shadows, overlays, layered shapes
- Accentuate the X – can represent the 4 party card payment ecosystem – scheme, issuer, merchant, cardholder
- Avoid blues and black

TXN brand archetype

txn is the kind of brand that inspires confidence and sparks possibility. We simplify the complex and turn bold ideas into real-world solutions – with the wisdom of experience, the curiosity to explore new and better ways and the ability to build card programmes quickly using intuitive technology.

txn: The curiosity of an Explorer, the wisdom of a Sage, the imagination of a Creator, and the transformative power of a Magician
Fuelled by curiosity, guided by wisdom, powered by AI – we create, explore and deliver like magicians

The Magician

The Sage

The Explorer

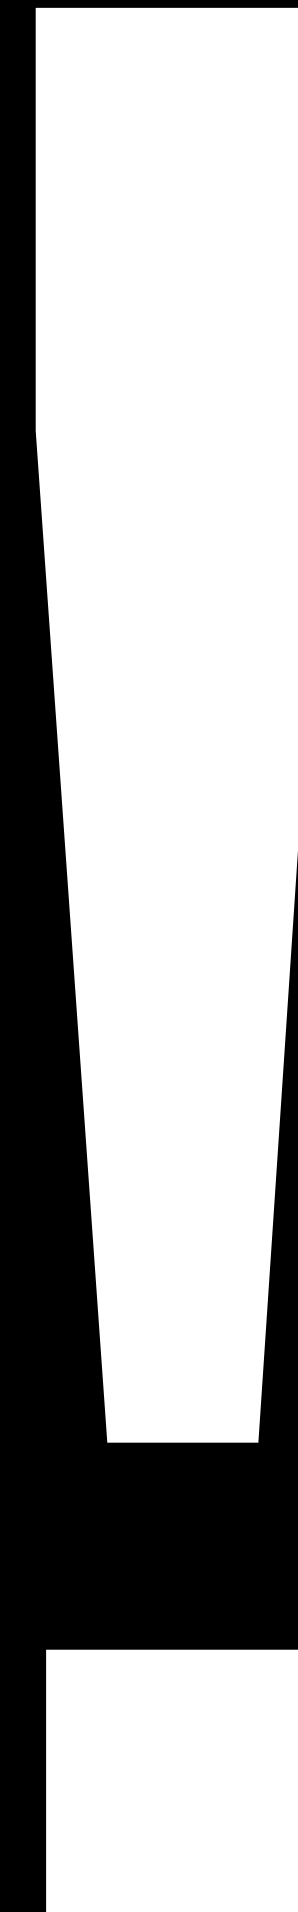

The Creator

WHAT ARE
YOU SELLING?

WHAT ARE WE SELLING?

Sell the problem you solve, not the product you have.

We had B2B
We had B2C

It is now H2H

Human to Human

PROBLEMS WE SOLVE	EMOTIVE BENEFIT
Expensive to build systems in-house	Cost effective
Time consuming to build systems in-house	Speed, agility
Complex to build systems in-house	Simplicity
Risks associated with compliance	Trustworthy
No more reliance on human interactions	Tech driven
Helps get my idea to market quickly	Efficiency
Backed by years of industry experience	Reliability
They make it easy to understand	People centric

TOWARDS OUR BRAND MESSAGING

txn is always looking forward.

txn removes complexity, risk, and cost.

It helps innovators go to market faster.

It's secure, compliant, but simple and energetic.

The Magician and Innovator archetypes are all about transformation. txn enables others to achieve what seems difficult or impossible, seamlessly. It takes the pain and red tape out of a complex process and turns it into something fast, smart, and smooth. It's fintech alchemy - making the hard stuff disappear so innovation can thrive.

Brand Traits (and how txn expresses them):

- Visionary – txn empowers clients to move fast and scale what's next.
- Transformational – it changes a traditionally painful process into a frictionless one.
- Enabler of Others – it doesn't take centre stage; it equips innovators to shine.
- Trustworthy and Clever – magic that works because it's grounded in secure, reliable tech.

WHAT IS OUR BRAND PERSONALITY?

the looking glass

Car: Motorbike

Flexible and nimble,
Fast and agile,
Quicker to reach,
destination,
Able to cut through “traffic”

Animal: Monkey

Flexible, agile, fast
Alert, intelligent
Able to reach heights,
Adaptable - find new paths

Sport: Tennis

Speed, agility
Power, stamina
Strategic, creative

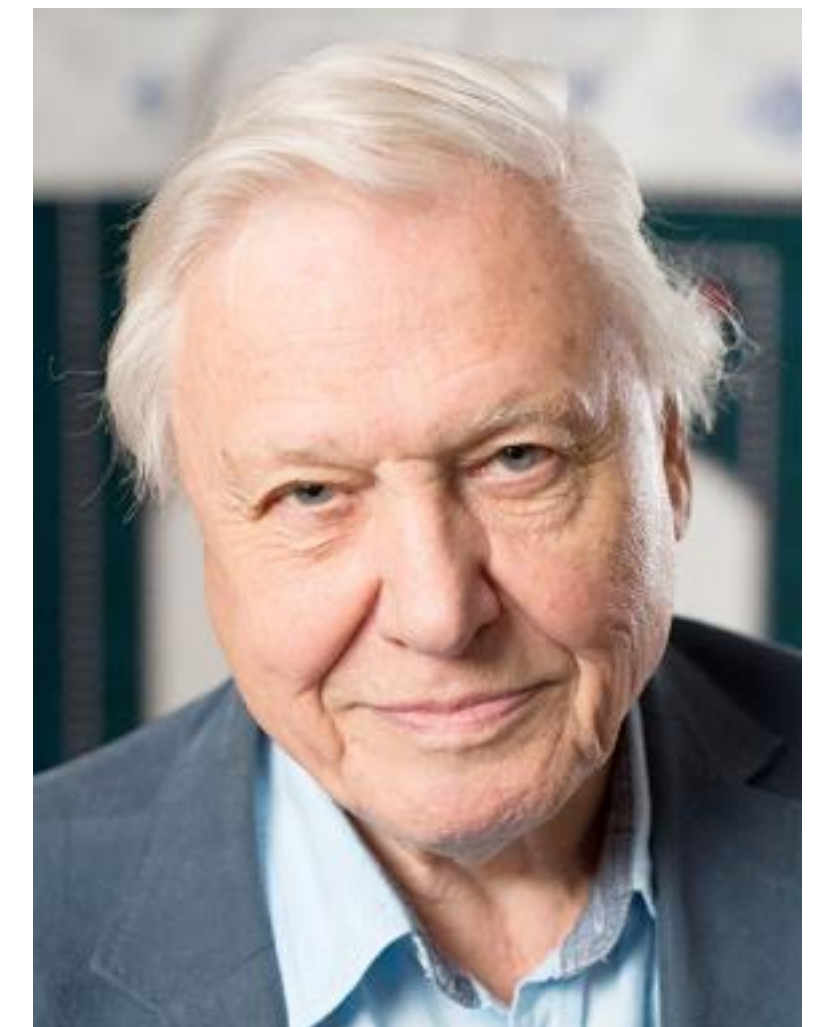

Beverage: Water

Essential
Foundation to success
Simple and uncomplicated
Flavourless: allows ingredients
to shine.

Celebrity: David Attenborough

Authentic, wisdom, experienced,
Always looking ahead, future focused, warm,
Approachable, clear, easy to understand

OUR TONE OF VOICE

Intelligent, not intimidating

We speak with clarity and experience, using language that informs without overwhelming.

Confident, not cocky

We know our edge, but we're here to serve and support innovators, not steal the spotlight.

Energetic, not chaotic

We move with momentum, but never rush. Precision with pace.

Slick, not showy

We keep things clean, considered, and compelling. No jargon, no spin.

Inspiring, not idealistic

We paint a vision of what's possible, grounded in practical ways to get there.

APPROACH

txn is about partnership and multiplying possibilities.

The 'x' serves as a bold, central symbol—a powerful glyph that captures the essence of **collaboration, expansion, and exponential impact.**

'x' represents multiplication:

not just in the mathematical sense, but in terms of exponential value creation.

'x' represents collaboration:

we position ourselves as a collaborative force, a meeting point of strengths. From co-creating new solutions to integrating into an existing ecosystem.

'x' represents flexibility:

As much as the graphic is symmetrical, geometric it can be rotated and adapted without losing that strong and simple shape.

'x' represents possibility:

it shows how txn embraces open-ended innovation and future-focused thinking. Every partnership is a new equation, and together with their clients, they solve for what's next. They don't define the limits; they define the possibilities.

'x' represents energy:

the intersecting lines of 'x' show the convergence of technology, insight, human connection and energy.

It's minimal yet dynamic, confident and progressive. txn is a brand **connects, multiplies, and co-creates** with those who share our vision of doing **business beyond boundaries.** Wherever you see the 'x', you see **partnership with purpose and impact without limits.**

about txn

We are a next generation, API-first card issuing platform purpose-built for FinTechs, digital banks, and innovators seeking to deliver differentiated payment experiences.

We enable businesses to issue and manage card programmes across Europe, the Middle East, and Africa — with speed, control, and confidence.

Our relentless drive is to simplify card issuing so you can focus on building, launching, and growing world-class financial products — not infrastructure.

why does that matter to you?

Launching a card programme is expensive, complex, and slow.

Most businesses struggle with:

- Building and maintaining compliant infrastructure
- Integrating with dated or overly complex platforms
- Relying on slow, manual, support-heavy processes

how do we deliver value to you?

- We unlock rapid innovation in payments.
- We empower your business to compete and scale with confidence.

Our customers benefit from:

Operational efficiency:

Reduce the cost, time, and risk of managing card infrastructure

Best-in-class experience:

Deliver seamless customer journeys with reliable real-time processing and rich controls

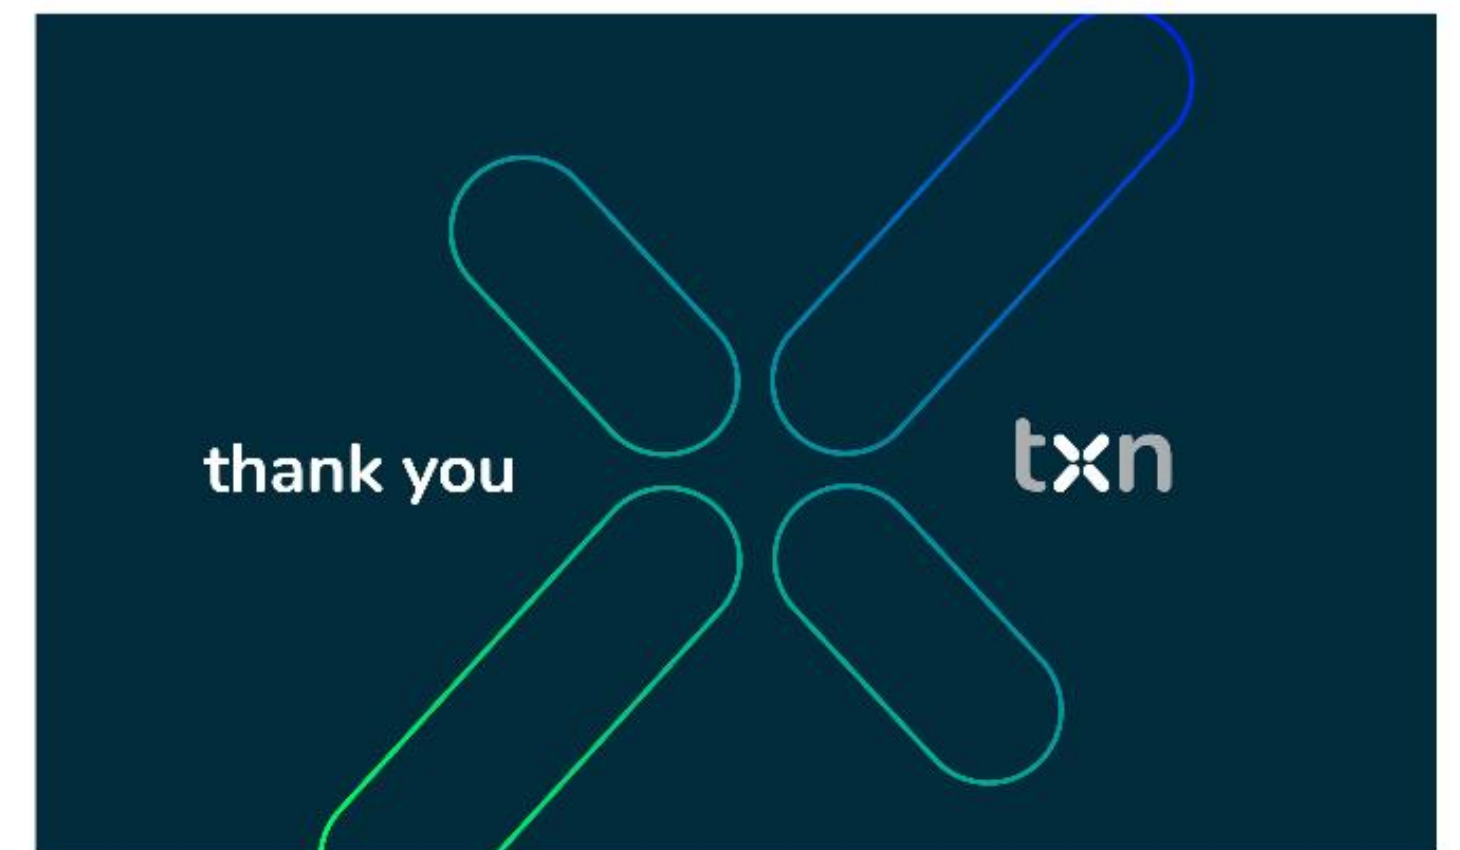

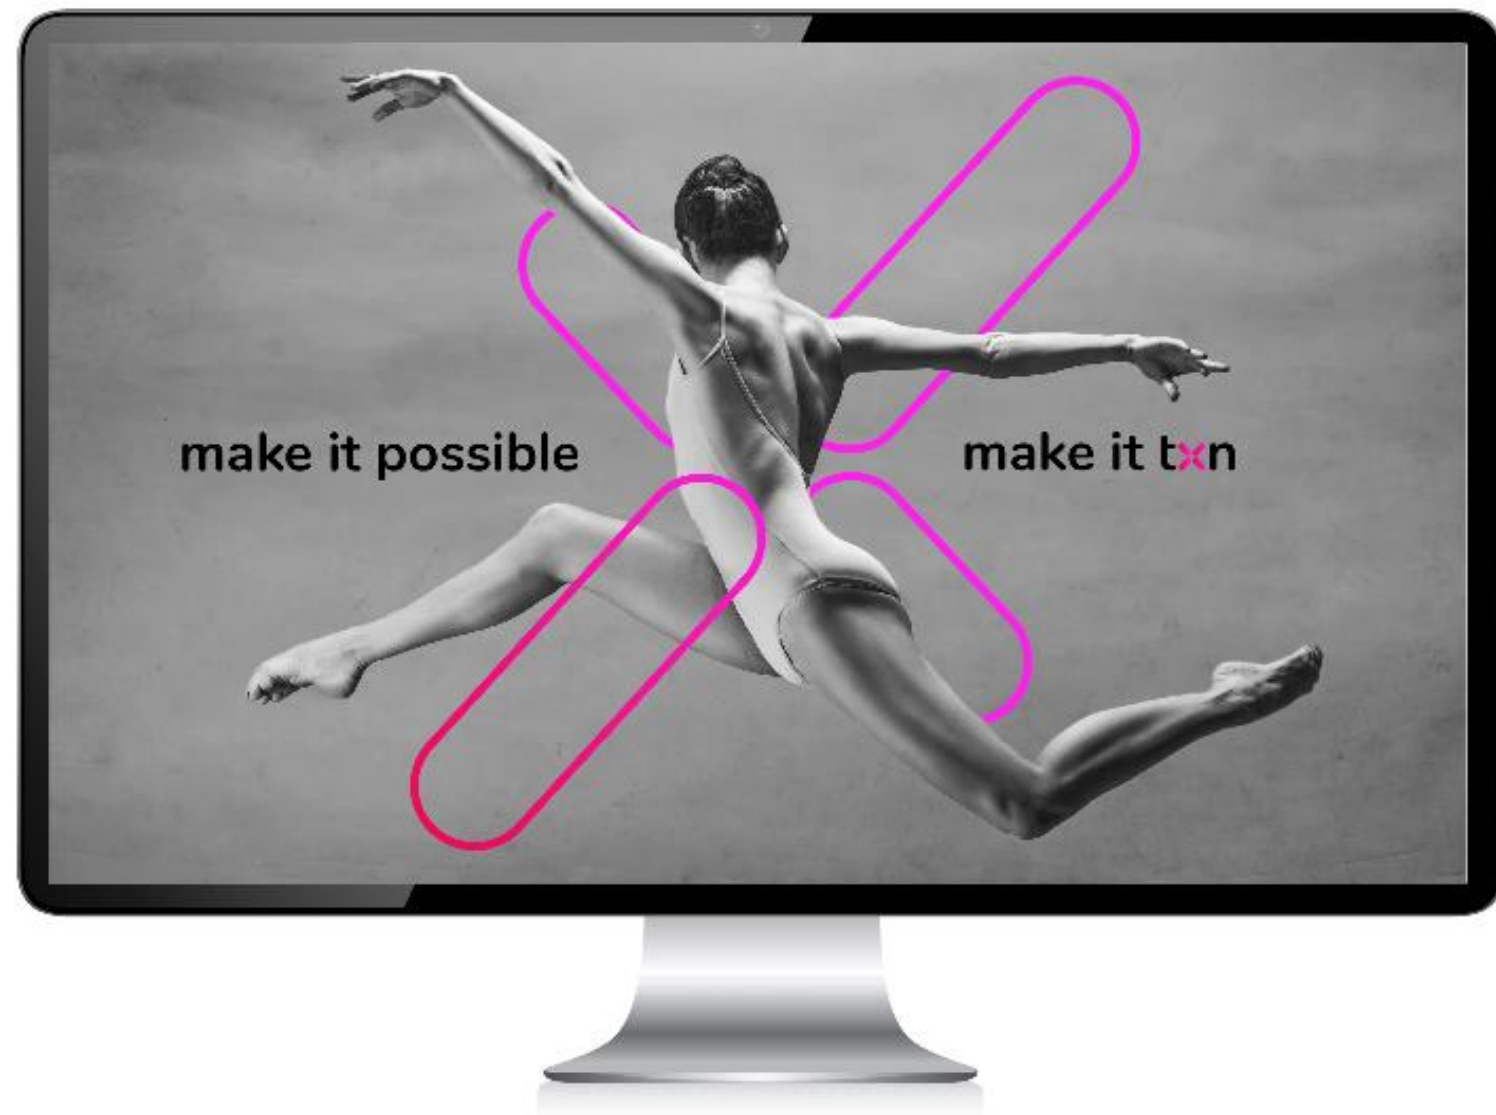

how are we best positioned to support you?

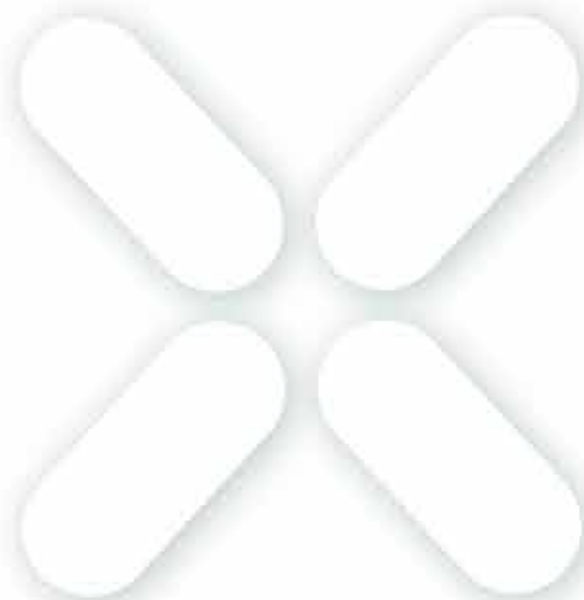

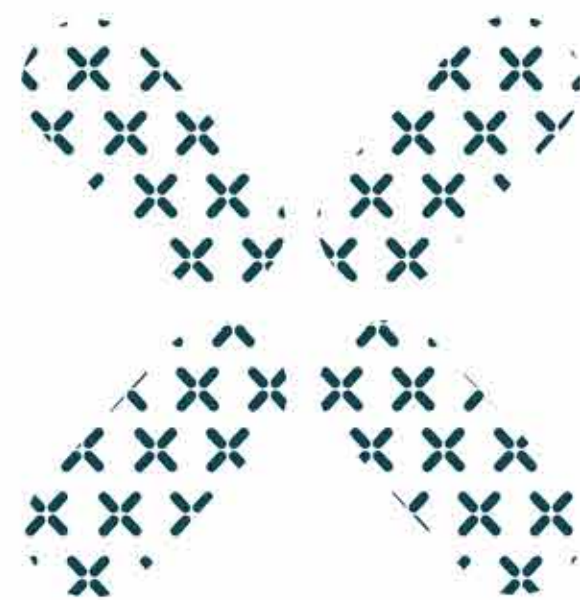

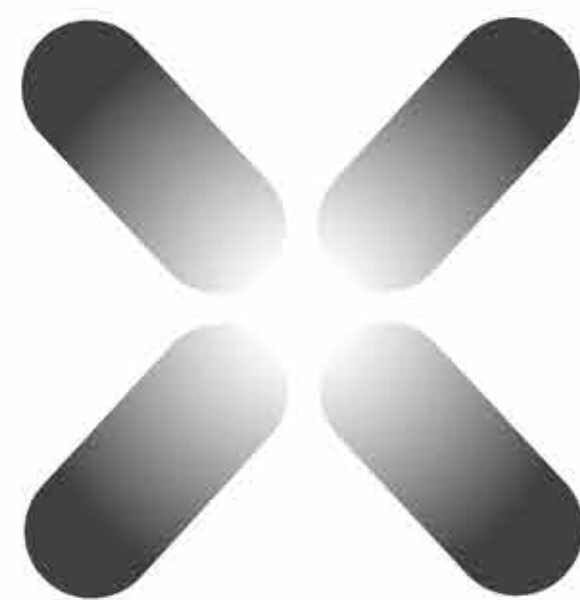

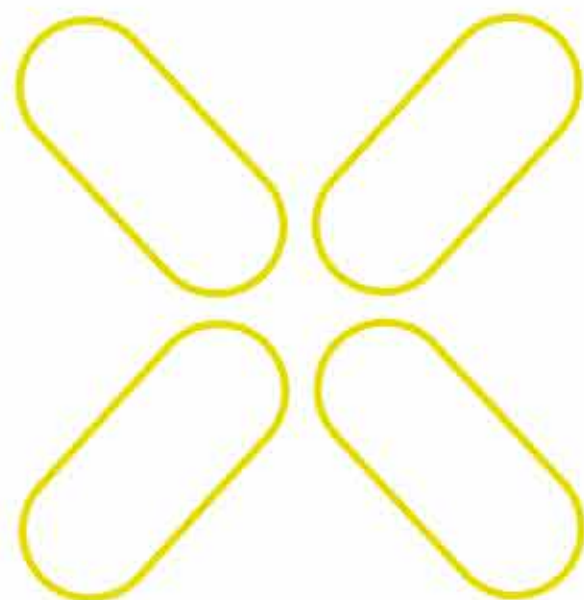

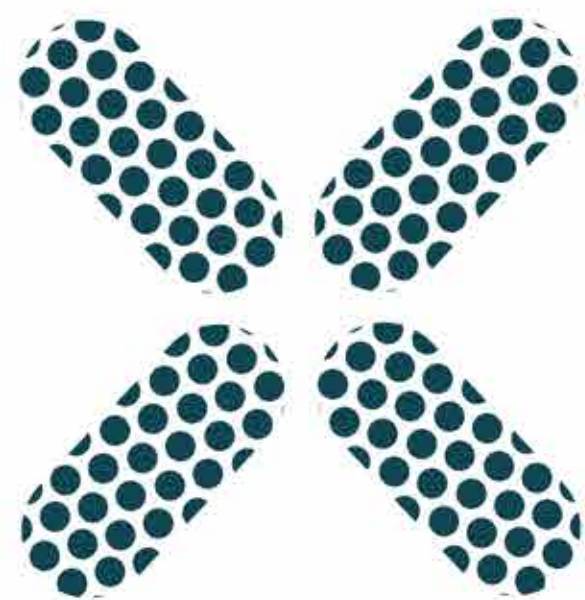

Let's build your future together

The future of card issuing is flexible, intelligent, and customer-first.
